STOCK NEWS.

At a Brisbane auction recently a Hereford bull sold for \$1,936, and a cow of this breed bought for \$1,352.

A colored cowboy at Mobeetie roped, secured and tied down a steer' in one minute and thirteen seconds. This is said to be the best time on record. [Exchange.

50 cents per handred weight higher any danger of their disseminating than they did one year ago. The Texas fever, which is the present large corn crop makes a big demand great drawback to the quick and for young feeding stock.

pool to the Drovers Journal quotes this territory will also be of a supean advance of 1c over the rates of rior quality as the good results of last Monday, Best American steers the thousands of fine bulls which 15c per lb estimated dead weight.

About 1,300 Texas ponies have been sold this year at Dodge, Kansas. They ranged in prices from \$15 to \$55 per head, averaging about \$35, and aggregating \$450,-

The hoaviest day's shipment from any given point on the U. P. road this season was from Pine Bluffs, 133 cars. Loading that many cattle in one day makes music in the air, and sound sleepers when night comes.

A man leading a cow by a rope, informed the Dodge City Globe Live Stock Journal that \$100 would not buy that cow, as she was worth more that purpose.

To make this department of the Era interesting, we earnestly request some good live man in every ings in their own immediate neightaining to the stock interests as will be of interest to the general public.

The Colorado Cattle Growers' Association will send forty-three delegates to the St. Louis convention. At a meeting the other afternoon the delegation was instructed to use their best endeavors to have a committee appointed by the convention to consider the feasibility of a national trail from the Gulf of Mexico in Texas to the British Possessions, to present a resolution at the National Convention requesting that all appointments of agents in the United States Bureau of Animal Industry be made by the Commissioner the use of salt meats before and of Agriculture on the recommendation of the National Cattle Growers' Association and to endeavor to have Denver selected as the place for

ports and the big decline in native shipping steers, Texas steers in good as there are frequent requests to publish notices of estrayed horses and cattle, the Era will hereafter publish in disposing of them.

New Mexico stockmen, with the large number of she cattle on their yearlings up, and become a formi- Chiquite, Lincoln county. dable competitor of Texas in that market. One great advantage that New Mexico can offer in her cattle will be the utter absence of disease of any kind among them; they can be transported by rail or driven Stock cattle are now selling about at any season of the year without successful sale of Texas cattle. The The special cablegram from Liver- cattle which will then be sent from have been turned loose upon the ranges in the past two years. | Stock

The Necessity for Salt.

A few weeks ago in these columns mention was made of the necessity of salting stock, especially after the rains had washed or rotted the grass. It is a subject which should not be lost sight of and to keep it in mind we append some valuable matter which is taken from the Veterinary Journal, which goes to show that the necessity for salting stock is even more imperative than had been

"Sait is a restorative and tonic, and therefore should be always within reach of every herbivorous than that sum to him to herd upon, animal. It is an actual and physioas he had ridden her all summer for logical necessity to them. One animal may require little, the next one The Messrs. Temple, of Colfax a great deal; but without it perfect county, have 1,100 head of cattle in health cannot be maintained in their pasture. They picked out 300 horses and cattle. Its importance of the best and have sold the remain- can be seen from the following physder to Colorado Springs parties for i dogical facts in connection with: \$33.50 per head. The cattle will be The serum of the blood containing driven north as feeders. [-Exchange. four to six parts per thousand. It exists in all secretions, and is the chief source of the muriatic acid secreted by the stomach. It largely community throughout Lincoln in reases the secretions from the county to send us the local happen- gastric and salivary glands; it promotes the digestion of vegetable borhoods. Give estimated number food, and renders it more fit for of cattle on the ranges; efforts made absorption. Hence the greed of to improve the same; sales or pur. salt in all herbivorous animals, and chase of additional stock; kind and the utility of those salt-licks to which quality, and such other matters per- buffalo, deer and other wild beasts In Holland criminals in ancient times were condemned to die by eating unsalted bread, as the severest punishment that could be inflicted. The effects were terrible. These wretched persons are said to have died a dreadful death, literally devoured by worms engendered within their own bodies. In scrofula affecting the glands, skin and bones, salt has been used externally. It is essential to digestion, a popular and reliable remedy for worms, and food without salt engenders them; and also possesses the property of of preventing more or less alcoholic intoxication. This is well known by

after the use of alcohol." "Six bullocks were selected of the same age, vigor, etc., and were all supplied with abundance of nutriholding the next National Conventious food; but three of them, in addition, received over one and a Although the beef market is not quarter ounces of salt daily. With
